# Michiel Peeraer

+32 484 77 37 52
peeraer.michiel@gmail.com

## SUMMARY

**Full-stack TypeScript developer** with expertise in MERN and PERN stacks, skilled in creating scalable, production-ready web applications. Proficient in frontend architecture, REST API integration, and backend services. Committed to performance optimization and clean software architecture, delivering tangible business value through software solutions. Seeking opportunities across the EU.

## WEBSITES

- michiel.peeraer-vanmoorsel.be
- github.com/MichielPeeraer
- linkedin.com/in/michiel-herman-peeraer

## CORE STACK

- React.js, Next.js
- TypeScript
- Tailwind CSS
- SCSS, SASS
- Node.js, Express.js
- Python, Flask, FastAPI
- REST APIs, Postman
- MongoDB, PostgreSQL
- Git, GitHub
- Docker
- CI/CD with GitHub Actions
- Kubernetes (basic knowledge)
- Agile methodologies

## DEV PRACTICES

- Input Validation (Zod, Yup, Formik)
- JWT Auth (Bearer)
- State Management (Redux)

## EXPERIENCE

07/2024 - 01/2025
**Full-Stack Developer**
**Belixys Electronics** | Huizingen, Belgium

- Developed AI-powered camera interfaces using React, TS and REST APIs
- Built and maintained backend services with .NET and MongoDB
- Improved frontend performance and maintainability through refactoring
- Contributed to scalable UI architecture using component-based design

04/2023 - 02/2024
**Full-Stack Developer**
**iSide Web & SEO** | Sint-Pieters-Leeuw, Belgium

- Built and maintained CMS-based websites using JS, PHP and MySQL
- Developed React-based Gutenberg components in WordPress
- Improved SEO and performance for client websites
- Translated designs into responsive web interfaces

12/2022 - 04/2023
**Full-Stack Developer**
**Movu Robotics** | Spiere-Helkijn, Belgium

- Built internal tools using React, Node.js and Express.js
- Integrated APIs with automated warehouse hardware systems
- Developed tools for real-time monitoring and diagnostics
- Created technical documentation for end users

03/2022 - 10/2022
**Robotics Support Engineer**
**ABB Robotics** | Huizingen, Belgium

- Troubleshot software and hardware issues in robotic systems
- Performed system commissioning and debugging
- Supported critical deployments to reduce downtime
- Collaborated with engineering teams to resolve technical issues

02/2021 - 06/2021
**Software Developer & Prototype Engineer**
**OneBonsai VR** | Vilvoorde, Belgium

- Developed VR training prototypes with sensors and microcontrollers
- Integrated hardware components with VR software environments
- Built custom VR hardware setups and integrated systems
- Tested VR solutions for enhanced user experiences.

## LANGUAGES

- Responsive Design (Mobile First)
- Component-Based Architecture
- Performance Optimization
- Secure API Design
- UI Animations (Motion)
- UI Libraries (Mantine UI)
- E2E Testing (Jest, Playwright)
- Documentation (e.g. Swagger)
- SEO

## HOBBIES

- Boardgames
- Long-distance hiking
- Electric guitar
- Concerts
- Traveling

**Dutch**: First Language

**English**: C2
Proficient

**French**: B1

## EDUCATION

2026
**Boot.dev** | Online
Certificate: Back-end Developer Path (Python & TypeScript)
*In progress, 900+ lessons*

- Mastering data structures, algorithms, and Big O analysis for optimised code
- Developing production-grade projects using Python, TS, and PostgreSQL
- Focusing on functional programming and server-side resource management
- Implementing Docker, CI/CD pipelines, and secure RESTful API design

2022
**Karel de Grote Hogeschool** | Hoboken
Bachelor: Multimedia & Creative Technology

- Hands-on experience with web & app development, IoT and prototyping
- Worked with 3D modeling, VR, and robotics projects
- Collaborated on real-world projects with companies and organizations
- Developed teamwork, problem-solving and multimedia production skills

2022
**Syntra MVL** | Asse
Certificate: VCA Safety for Operational Supervisors
*Valid until May 2032*

- Completed training on workplace safety, regulations and responsibilities
- Learned hazard identification and risk assessment in industrial environments
- Studied methods for guiding teams in safe work practices
- Covered procedures for safety inspections and incident reporting

2022
**Siemens - Sitrain** | Huizingen
Certificate: PLC programming (TIA PRO1 & PRO2)

- Programmed, and tested industrial automation systems using Siemens PLCs
- Configured hardware and software in TIA Portal
- Developed structured ladder logic and function block programs
- Troubleshot and debugged PLC programs in live production environments

## DRIVING LICENCE

- Category B auto
